

ABOUT AEROPRESS COMPETITION

World AeroPress Championship (WAC), it's one of the most fun and accessible coffee competitions in the specialty coffee world.

Here's how it works:

Anyone can enter home baristas, and professionals, as long as they use a genuine AeroPress brewer. Competitions start with regional or national events. Winners advance to the World Final, with travel typically covered by the organizers.

AEROPRESS JUDGES EXPERIENCE

AeroPress Championship Judge

Served as a sensory judge in AeroPress competitions, evaluating coffee through blind cupping. Assessed cups based on balance, sweetness, clarity, acidity, body, and overall drinking experience. Worked independently to select the best cup without discussion, following official World AeroPress Championship judging procedures and maintaining fairness and consistency throughout the competition.

The judges will evaluate each contestant impartially and select the individual who best deserves to be crowned. This is a fair competition that values ability, knowledge, and genuine passion for coffee. Now, let the show begin! May the very best of the best be crowned. Good luck to all the contestants!
